Hosokawa Yoko Co., Ltd.

Announcement of completion of the 4th building of Gunma Fujioka Plant.

Today, we held the completion ceremony for the 4th building at the Gunma Fujioka Plant, which we have been constructing for some time.

The 4th building completed this time is a two-story building. On the 1st floor, we will introduce a state-of-the-art tandem dry laminating machine which can perform two separate laminating operations at the same time to realize efficient operation and high productivity

A bag making machine such as B.I.B. (Bag-in-Box) / Cheertainer® GZ has been relocated to the 2nd floor to create a cleaner environment and establish an efficient workflow.

As a result, the machinery and equipment of this plant will be 3 printing machines, 3 laminating machines including the one introduced this time, 1 extrusion laminating machine, 6 slitting machines, and 15 bag making machines.

In addition, the Gunma Fujioka Plant celebrates its 30th anniversary this year.

We will continue to strive to meet the needs and requirements of each customer.
